

# 201918010403-Kaylin-semester2-week9

Chengdu University of Technology Oxford Brookes College

Project Module (CHC 6096)

Weekly Report Sheet

STUDENT NAME:	Kaylin (Zhang Ningyue)
STUDENT NUMBER:	201918010403
SUPERVISOR NAME:	Gore Jiang
DATE:	2023/4/28 (week 9)

Briefly list all the main tasks you accomplished in the week.

1. Solve the problem that students have chosen courses but the number of students has not increased. Check whether the course selection record is inserted into the database.
2. Improve the course interface to show users the maximum number and the current number of students.
3. Check permissions of the course selection function. If a user logs in as a student, he can only view information about courses of his choice. If the user logs in as a teacher or administrator, the course selection information of all students can be viewed.
4. Conduct functional tests to ensure that teachers and administrators can delete course information in batches.

Briefly state all the challenges you encountered in the week.

1. During the test, it was found that the algorithm logic of the course dropping function could be improved.

Briefly Plan out the agenda for next week.

1. Improve the logic of the course dropping algorithm and carry out functional testing.
2. Conduct acceptance testing to ensure that the entire software works as expected. Verify the user interface and the software's running state under different versions of operating systems.
3. Write the final report.
4. Create a poster.
5. Prepare the presentation.
