201918010403-Kaylin-semester2-week6

Chengdu University of Technology Oxford Brookes College

Project Module (CHC 6096)

Weekly Report Sheet

STUDENT NAME:	Kaylin (Zhang Ningyue)
STUDENT NUMBER:	201918010403
SUPERVISOR NAME:	Gore Jiang
DATE:	2023/4/8 (week 6)

Briefly list all the main tasks you accomplished in the week.

1. Test the photo-upload function to ensure that photos are stored in the database in binary form rather than in the server as files.
2. Update the student module. Change the student number from manual input to automatic generation. Introduce time stamps to avoid duplication of student numbers.
3. Set the hidden iframe to ensure that the page is not refreshed when the user submits the form.
4. Test the student list. The jsp page loads successfully and JSON gets the list of students accurately.

Briefly state all the challenges you encountered in the week.

1. Failed to upload the photo, possibly because the format and size do not meet the standard.

Briefly Plan out the agenda for next week.

1. Resolve photo uploading failure.
2. Test the teacher list. The jsp page should load successfully and JSON should get the list of teachers accurately.
3. Test the class list. The jsp page should load successfully and JSON should get the list of classes accurately.
4. Check the database to ensure that both students and teachers have corresponding classes and courses. Through the transmission of students and teachers, classes and courses should be connected indirectly rather than directly.
5. Resolve problems in database tables. After the data is deleted, the sequence of that data still exists. The sequence of new data is incremented by the number of data before the deletion.
