Weekly Report Sheet

STUDENT NAME:	Kaylin (Zhang Ningyue)
STUDENT NUMBER:	201918010403
SUPERVISOR NAME:	Gore Jiang
DATE:	2023/4/15 (week 7)

Briefly list all the main tasks you accomplished in the week.

1. Adjust photo format and size to resolve uploading failure.
2. Test the teacher list. The jsp page loads successfully and JSON gets the list of teachers accurately.
3. Test the class list. The jsp page loads successfully and JSON gets the list of classes accurately.
4. Check the database to ensure that both students and teachers have corresponding classes and courses. Through the transmission of students and teachers, classes and courses should be connected indirectly rather than directly.
5. Resolve sequence problems caused by data deletion.

Briefly state all the challenges you encountered in the week.

1. During the test, it was found that the permissions for the navigation bar were not set. Different types of users see the same content.

Briefly Plan out the agenda for next week.

1. Set navigation bar permissions. Ensure that only teachers and administrators can add, delete and modify course information. Consider applying JSP judgment statements to solve this problem.
2. Test the password change function. Ensure that different types of users can successfully change their passwords after login.
3. Test the course list. The jsp page should load successfully and JSON should get the list of courses accurately.
4. Check the course related tables in the database. Update the query list and improve the fuzzy search of course information.
